

X3-Laser Pro

Three-dimensional laser with three green 360° laser circles and magnetic clamp and wall bracket

The three-dimensional cross-line laser allows the exact horizontal and vertical alignment of objects. Green laser technology ensures high visibility of the laser lines. The measuring device is optimised for work close to the ceiling, can be mounted in a variety of ways and has a long operating time.

- Exact horizontal and vertical alignment of objects
- Good visibility through green laser technology
- Time-saving automatic alignment
- Easy alignment of slopes
- Practical plumb function thanks to laser crosses
- Ideal for work close to the ceiling
- Visual signals indicate when the device is outside its self-levelling range
- Integrated hand-held receiver mode for outdoor applications
- Simple horizontal and vertical mounting on drywall construction profiles
- Connection for power supply unit for continuous operation
- Long battery operating time thanks to powerful lithium-ion rechargeable battery
- Extra battery for extended operating time
